

A horizontal bar chart consisting of 30 black bars of varying lengths. The bars are arranged in a single column, with lengths ranging from approximately 10% to 95% of the total width. The distribution is roughly bell-shaped, with the longest bars in the middle and the shortest at the top and bottom.

A horizontal bar chart consisting of 30 black bars of varying lengths. The bars are arranged vertically, and their lengths represent a distribution of data. The longest bar is the 15th bar from the top, and the shortest is the 10th bar from the top. The bars are set against a light gray background with a white grid.

A horizontal bar chart consisting of 30 bars. The bars are arranged vertically, one above the other. Each bar is a solid dark gray color. The lengths of the bars vary significantly, with some being nearly full-width and others being much shorter. The bars are distributed across the entire height of the chart area.
